SCAG's RHND & Consultation Assessment

Strengths

- Commitment to a high quality, data-driven approach
- Clear documentation and explanations
- Addresses several challenges experienced in 6th cycle
- Recognizes the distinction between regional housing forecasts and planning for regional housing needs (CG 65584.01)

Areas of Differing Interpretation

- Greater emphasis on statewide consistency than SCAG's understanding of GC 65584.01
- More piecemeal, item-by-item approach compared with SCAG's integrated long-range forecast of population, households, and employment
  - Reflects differing perspectives on how market dynamics and regional planning objectives should inform RHND
