Los Angeles, CA 90017

Dear Kome Ajise:

**RE: Final 7th Cycle Regional Housing Need Determination**

This letter provides the Southern California Association of Governments (SCAG) its final Regional Housing Need Determination (RHND). Pursuant to state Housing Element Law (Gov. Code, § 65584, et seq.), the California Department of Housing and Community Development (HCD) is required to provide the determination of the region's existing and projected housing need.

From August 2026 to October 2026, HCD and SCAG staff completed a consultation process covering the methodology, assumptions, data sources, and timeline for HCD's determination of SCAG's regional housing need. To inform this process, HCD also consulted the California Department of Finance (DOF) Demographic Research Unit.

Attachment 1 displays the RHND of **1,359,750** total units among six income categories for SCAG to distribute among the region's local governments. Attachment 2 explains the methodology and assumptions applied pursuant to Government Code section 65584.01. To determine the region's housing need, HCD considered all the information specified in Government Code section 65584.01, subdivision (b).

SCAG is responsible for adopting a methodology for the Regional Housing Needs Allocation (RHNA) and a RHNA Plan for the *projection* period beginning June 30, 2029, and ending October 15, 2037. Pursuant to Government Code section 65584, subdivision (d), the methodology to prepare SCAG's RHNA Plan must further the following objectives:

1. Increasing the housing supply and mix of housing types, tenure, and affordability
2. Promoting infill development and socioeconomic equity, protecting environmental and agricultural resources, and encouraging efficient development patterns
3. Promoting an improved intraregional relationship between jobs and housing
4. Balancing disproportionate household income distributions
5. Affirmatively furthering fair housing
